Disability in India

- Poonam Deshmukh

What is Disability?

A disability is any continuing condition that restricts everyday activities. The Disability Services Act (1993) defines 'disability' as a condition :

- Which is attributable to an intellectual, psychiatric, cognitive, neurological, sensory or physical impairment or a combination of those impairments.
- Which is permanent or likely to be permanent.
- Which may or may not be a chronic or episodic nature.
- Which results in substantially reduced capacity of the person for communication, social interaction, learning or mobility and a need for continuing support services.

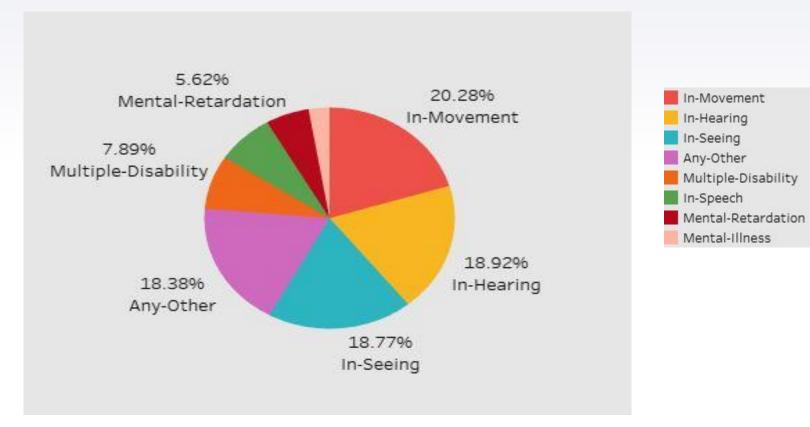

What are the common Disabilities?

- Hearing
- Speech
- Movement
